3 and 4 beroom luxury villas in the prestigious urbanisation of Mijas Golf. Inspired by Scandinavian quality and minimalistic design our architects have created a house with the best standards in energy efficiency and materials. The house should be fully enjoyed all year so we have created open spaces, big sliding glass doors and a modern design, combined with a functional layout with up to 4 bedrooms. The terrace, garden and infinity pool is elegantly integrated with the house creating a unique indoor-outdoor space. All the windows and glass doors are double-glazed with aluminium frames blocking the UV-rays in the summer time as well as isolating the house during the winter time. The modern sand coloured tile floor lay throughout in the entire house and floats out on the terrace. The floor can be heated to ensure a healthy and comfortable indoor environment all year round.
